Superb Estate	10   3   13	7
Roomster	8   3   11	7
Yeti	10   3   13	7

### Factory order checklist

• Before placing a new factory order, check if there's a suitable car in stock by using the Stock Query in SLi

• If there is no stock to match your order, check you have available quota before quoting lead times.

• If you do have quota then use the derivative level average lead times, in conjunction with any known production issues listed, to set an accurate lead time expectation.

• If you do not have quota then the car will go onto the Wait List until quota becomes available. You must add on the relevant number of weeks to the lead times.

### Weekly Tip from the Supply Team

Using the correct required date once the car has reached physical status 30 will ensure you car arrives at the right time and not too early or too late.

- Factory Lead times
- Transport lead times

\* Based on the assumption that the vehicle is called off/transport order is raised

## Supply Headlines

**Hot Alert Octavia**  
The current worldwide capacity of Octavia vRS is very low. The UK receives a proportion of this each week. Due to the low volumes of production vehicles do not show a scheduled build week. However lead times are approximately 18-20 weeks and this should be quoted to customer who place a new order. Stock units will be moved to the Held List for the interim....

**Roomster & Yeti - Shark Blue no longer available**  
Shark Blue has been removed for ordering due to the colour discontinuing. Please amend any stock orders to a different colour. There are some customer orders that will not get built due to end of production. Affected Retailers are being contacted by the CSC....

**All Models - TSI Engines Restricted in January**  
We will have a restriction on TSI engines in January, excluding Octavia and Superb. Therefore build weeks may slip backwards because of this. The issue is down to the low capacity of components. This is likely to last throughout January also....

**All Models - Factory Christmas Holiday**  
The factory holiday has now started and lead times will have increased by 2 weeks due to no production. Production will commence in BW2 for all model except Citigo, which starts in BW3....

**A7 Octavia - Item restrictions causing lead time increase**  
We've removed the following options from ordering for the Octavia to maintain lead times and customer satisfaction: 6K2: Front assistant, PLI: Adaptive cruise control, PWH: Lane assistant, PJG: 17-inch Denom alloys. These options will be removed from brochures... (See Bulletin SK0904-13)

**Citigo - Citigo S Demo, Stock & Showroom Ordering Blocked**  
We have stopped the ability to order Demo, Stock and Showroom Citigo S trim vehicles. Customer units for Citigo S can still be ordered....

## Logistics Deadlines

**Key dates:** CALL OFF **Mon 13 Jan** TRANSPORT ORDER **Fri 24 Jan**

**Vehicles in Emden (physical status 36 and 38)** – vehicles will need to be in Emden and called-off / customer tagged by **date above**, to enable the **majority** of them to be shipped to the UK Port and then delivered to the Retailer before **the end of the month**.

**Vehicles already in UK Ports (physical status 40)** – vehicles need to be in the UK Port, in consigned status and transport order raised by **midday on the date above**, to allow the **majority** of them to be delivered to Retailers before **the end of the month**.
